Note. Information on individual items (e.g., item wording, item scoring, composite scores) is available in the document *surveyscales-new.csv*. For the MMS scales, information can be found in *surveyscales-mms.csv*. Scales will be administered in one of twelve sequences (see *latin-square.txt*) for each participant. The ordering of items within a scale will remain consistent for each participant, and is shown as *order.new* in the aforementioned *csv* files.
